## TRUSTING WOMEN.

THEIR CONFIDENCE OFTEN LEADS TO SUFFERING.

An Ohio Woman's Experience, as Here Related, is Interesting to Every American Woman.

It is a very sad fact that the more a woman trusts to the skill of her physician in treating her female complaints, the

longer she is apt to suffer. Lydia E. Pinkham fully realized this fact when she commenced that exhaustive study that has enabled the women of the world to help themselves. She dis-covered the source of female complaints, and produced the Vegetable Compound

which is their absolute cure. When such testimony as the following is given, the woman who thinks should act quickly, and no longer permit herseli o trust to incompetent doctors. The Vegetable Compound is sold by all drugists, and every woman should have it.

The doctors had told me that unless I went to the hospital and had an opera-tion performed I could not live. I had failing, culargement, and niceration of
